Bronson Koenig Basketball Camp

by Val Niehaus

The Forest County Potawatomi (FCP) community had a special guest visit July 21 and 22, 2022, at the Potawatomi Community Center, Bronson Koenig, who was a former Wisconsin Badger basketball player.

Koenig is a member of the Ho-Chunk Nation and visited the area to practice with youth in a two-day camp. There were two age groups: 7-12 year olds and 13-18 year olds.

Both days lasted about two hours for each group session. Koenig did ball-handling lessons, dribbling sprints and showed the participants proper shooting techniques so they could start mastering their shot. He said, "Most players you see go out to the 3-point line when warming up. The best place to start is right under the basket, then slowly move back after shooting a few shots. Think about what your legs are doing, what your follow-through is like, and remember always reach your hand in that cookie jar." He mentioned that he didn't get his shot perfected till about his earlier 20s, so it takes time, good coaching, and hard work.

On day two between the two sessions, he took a bit of time to tell the youth and parents a bit about his life. Koenig spoke not only about basketball, but also about growing up. He highlighted significantly on mental health awareness. He spoke about his earlier years in life and how intergenerational trauma contributed to his low self-esteem, being depressed, being anxious — even not wanting to live at the young age of six. He spoke about how this trauma is intertwined within DNA and how it affects us. As he grew and learned more about his feelings, he found ways to cope. He opened himself up to meditating, talked about how he is feeling in the present moment, used breathing exercises to help when he was anxious. Koenig highlighted how instant gratification with teens currently can cause a lot of anxiety or/and depression. He asked the group, "When was the last time you just sat in your thoughts? When was is just quiet and you felt all the feelings your body was putting out?" There was no answer from anyone in that group of about 50 people — all ranging from age six to 60. It really showed that our screens and things we do in our everyday lives gives us that instant gratification. When we don't have that, we feel under-stimulated — but it's really okay to feel that way. It's okay to take a break; it's okay to not being doing something every minute of the day, to sit alone in quiet and process what your body is telling you.

After a good discussion and taking a few more questions, the last few hours of camp was held with the younger group of participants. All enjoyed themselves, asked questions, laughed, and gained more skills on their game of basketball.

This experience was pretty impressive. To have a former Badger come to this small community and play basketball with local youth makes a mark. You can see that Koenig is a man of hard work, determination, passion, and perseverance. He always said each day, "If you work hard at this game, you will have great results not only in the playing the game itself, but also in your everyday life." But always remember to take that mental break and check yourself to make sure you can continue the game or life for that matter.

With the 7-12 year old group.

With the 13-18 year old group.

August Elder Menus

Monday, 8/1
Scalloped Potatoes & Ham, Corn, Pickled Beets, Oranges

Tuesday, 8/2
Spaghetti & Meatballs, Garlic Bread, Cottage Cheese, Cucumber and Tomato Salad, Peaches

Wednesday, 8/3

Weapon Detection Installation

To ensure the continued health and safety of the community and our employees and visitors, the Forest County Potawatomi Community has invested in touchless Weapon Detection Systems.

This system is currently in place at the Potawatomi Hotel & Casino in Milwaukee and will be installed at the new Potawatomi Community Center and the Executive Building. Numerous entertainment venues, government facilities, and schools throughout the United States already use this technology to promote and enhance safety for employees and visitors.

With this system, people simply walk through the touchless security screening system. No stopping or emptying of pockets is required.

Since 2010, firearms and weapons have been prohibited in any buildings owned or leased by the Forest County Potawatomi Community. This system will identify these items and guests/ visitors will be asked to remove them from the property. Keeping our community and children safe is our highest priority.

ORTHOPEDICS CONSULTATIONS

available in Rehabilitation Services!

Honoring Health, Healing, and Tradition

Save time and money on travel. The HWC has partnered with Dr. Schaufelberger of Orthopedic & Sports Institute of the Fox Valley to bring orthopedic consultations to Forest County! Dr. Schaufelberger specialties include:

- Hand/carpal tunnel
- Minimally invasive arthroscopic surgery (shoulder, wrist, elbow, hip, knee, ankle)
- Robotic assisted joint replacement (hip, knee)
- Total joint replacements (hip, knee, shoulder)

Call our Rehab Services at (715) 478-4339 to schedule a consult.

Appointments available the first Thursday of each month beginning Thursday, August 4, 2022.

Appointments are available to:

- FCP-enrolled tribal members and their families
- FCP employees and their families
- Forest County residents

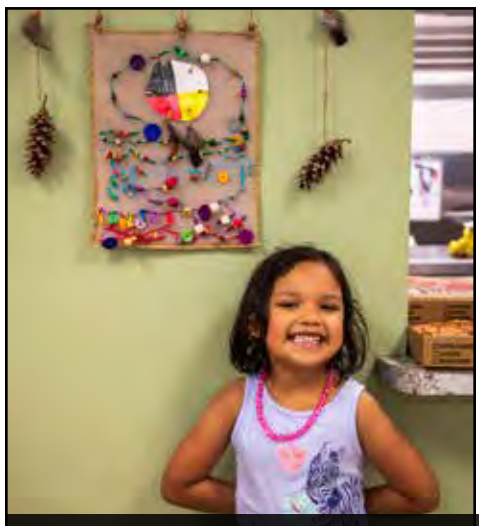
Summer Art Show at Gte Ga Nes Preschool

by Val Niehaus

Gte Ga Nēs Preschool hosted their very first Summer School Art Show on July 19, 2022, from noon to 1 p.m. The artwork was all made by the former students who graduated in May 2022 and was open to their families. It was nice to be able to see these students again and for them to see one another since graduating just a few months prior.

There was pizza, fruits, and desserts to snack on while you walked about the room to view the children's creations. The work was very nature-based art and included many special touches from each of the children. It was a fun day for the teachers and families to celebrate these little creative minds.



Adeline showing *PTT* her work of art! Great job, Adeline!

Eugene Shawano Sr. making sure he was present for his family.

Safety Fair 2022

by Val Niehaus

The annual Safety Fair held by Forest County Potawatomi Community Health was held on July 21, 2022, at the parking lot across from the Stone Lake C-Store.

There were car seat safety checks, along with many safety education booths from FCP Health & Wellness Center, FCP Emergency Management, and local first responders and emergency personnel.

Greenfire is growing and we are looking to expand our Team!

Milwaukee Operations – Paul Hackbarth:
Project Manager – Needs to have 3 – 5 years as an actual Project Manager with a Construction Management Firm or General Contractor. Looking

Milwaukee Operations – Thomas Heinrich:
Estimator – Needs to have 3 – 5 years actual estimating experience within the Construction industry.

If you know of any potential candidates for any of the positions listed above, please feel free to send the resumes to rebecca.sadler@greenfire.com

Aquatic Classes

Shallow Water Aerobics
This conditioning water class is held in the shallow water where no swimming skills are needed. The resistance of the water is meant to eliminate impact and be easy on the joints while performing activities. This class is easy to follow and provides motivating music.

Deep Water Aerobics
Higher-intensity cardiovascular water class designed for active exercisers who are looking for a challenging workout without the impact. Flotation belts are provided and recommended, but not required.

Aqua Zumba®
Join our certified instructors in the water for an aerobic dance workout that is easy on joints.

REGISTER FOR CLASSES
You can register at our front desk, or visit us online at: **community.fcpotawatomi.com**

PLEASE NOTE
You MUST register for all classes. Visit our front desk or scan this QR Code.

POTAWATOMI
BUSINESS DEVELOPMENT CORP

Project Spotlight: THE COMMON PLACE

The Common Place is a new mixed-use development that includes 88 residential units, ground floor retail space and an indoor climbing gym located in the Village of Ashwaubenon, right in the shadows of Lambeau Field.

The five-story structure consists of a precast concrete podium at grade level that supports four stick framed levels above. The ground floor features an 8,125 SF indoor climbing gym complete with a 45' tall top rope climbing wall, a bouldering wall, and fitness area that includes a workout space and yoga studio. The ground floor also houses a resident lobby, common spaces and two retail areas. Other amenities include a manicured residential courtyard with locally sourced materials, balconies for select units, surface lot parking, and one year climbing memberships for the first round of tenants.

The exterior of the building is comprised of an array of materials including red brick, metal panels, powdered coated steel elements with geometric accents and a full height glass curtainwall at the northeast corner showcasing the climbing gym. Glass storefronts line the western elevation for the retail areas.

The Common Place is the first of three planned phases for the site which required detailed preplanning from the team to account for site utilities, layout, and subsequent developments. A groundbreaking ceremony in September 2021 marked initial construction with foundations completed in February 2022. The team completed the concrete podium in March followed by installation of two stormwater retention systems at opposite ends of the site.

Currently, the exterior metal panels for the climbing gym are installed with the curtainwall glazing completing in July. The team is at the halfway point for metal stud framing on the ground floor with second floor stick framing beginning in late June. Framing for all five floors is slated to be complete in late August with rough MEP installation complete in fall. The building is expected to be watertight in September with interior build-out and finishes to follow. The project is slated to be complete by the end of the year.

A unique project brings about unique project conditions. Our project team is working directly with Walltopia, a climbing wall manufacturer out of Bulgaria, to produce, ship and install all climbing walls. Due to supply chain shortages and sourcing materials internationally, the team is working with the Village of Ashwaubenon to stage early procured items and equipment at an adjacent parking lot. This is all in an effort to mitigate risk and keep the project on track. In July when the climbing gym is watertight, the space will serve as the staging area in order to keep all materials out of the harsh northern Wisconsin elements.

Additionally, since the site is in close proximity to Lambeau Field and construction will occur during the Packers' season, the project team is being proactive by working with the Village and the Green Bay Packers organization to account for road closure and construction coordination logistics during home games.

We would like to recognize our project team for their hard work and innovative planning and anticipation which has made this project a success so far. The team includes Brett Christofferson, Senior Project Manager, Tim Koch, Superintendent, and Brandon Lehrer, Project Engineer. We would also like to thank Merge Urban Development Group for selecting Greenfire as their trusted construction partner and the opportunity to continue our strong partnership.

HCNI: 32ND ANNUAL TOUR OF HOMES

Historic Concordia Neighbors, Inc. was thrilled to welcome everyone back after two years of virtual tours. Hundreds of people enjoyed the online virtual tours but there's no substitute for the energy and excitement of the in-person tour. The residents love opening their doors to the public each year and talking about their historic homes and our community.

The Gilded Age was approximately 1870 to 1900 and ushered in massive changes in the U.S. from industrialization, economic growth, and social reform. Perceived as the land of economic opportunity, waves of immigrants came to the U.S. to build new lives. Our neighborhood developed in a similar time period from the 1890s through 1910. Those who prospered, including many German first and second immigrant generations, built beautiful homes along Highland Blvd. and throughout our neighborhood. The vibrant neighborhood glittered during the Gilded Age and shines even more so today.

The primary focus of HCNI is promoting the neighborhood through historic preservation. The first of five tours (other four tour homes shown at bottom of page) started at 944 N. 33rd St. The Refectory building, built in 1925 as Concordia College's dining hall, hosted this year's Home Tour ticket sales, Cake & Pie Social and John Eastberg's presentation. After renovations were completed in 2019, the building was renamed Wgemas.

Concordia College, founded in 1881, was at one time a preparatory school for Lutheran (Missouri Synod) ministers. In 1882, the College purchased land, between 31st and 33rd Streets and State Street to Highland Boulevard and began building a campus. After Concordia relocated to Mequon in 1983, the Forest County Potawatomi (FCP) Community purchased the 11-acre campus and in 1990 leased the buildings to the Indian Community School for 20 years. The FCP took back control of the property in 2011 and over the ensuing years have completed a $50 million+ redevelopment of the campus. Since several Potawatomi villages were located in the Concordia area prior to the 1830s, and as the current campus was transformed, FCP honored it with a new name – the Wgema Campus.

You will see evidence of the FCP redevelopment on State Street. The Potawatomi Business Development Corporation completed a $36 million data center on the north side of State Street. The Data Holdings Milwaukee facility is the region's largest secure, scalable and failsafe wholesale data center for single or multi-tenant use (www.dataholdings.com).

FCP also completed an extensive renovation in 2012 of 3215 W. State St. (originally Concordia Wunder Hall Dormitory built in 1924). This historic building now holds the offices of Potawatomi Business Development Corporation and Greenfire Management. The 63-year-old Pritzlaff Hall (believed to be named after a member of the Pritzlaff Hardware family) was renovated and is now home to Woodlands School. Other renovated buildings on the original Concordia campus include Albrecht Hall (built 1900) and Rickner Library.

Since the early 1990s, Historic Concordia Neighbors has played an integral part in the area's ongoing revival. We are a nonprofit, volunteer-driven group consisting of homeowners, renters, churches, and other nonprofit groups with
